

Information from NFHS and PIAA regarding the illegal Assassin move that was distributed by NFHS and PIAA on 11/19/2019

Quote from Jack Young, PIAA State interpreter, after I sent him questions regarding this move called the Assassin.

Bob,

“I don’t think this move should ever get to the end point. Attention has been brought to this because it has several elements that ranges between unnecessary roughness, potentially dangerous to illegal hold/maneuver. We’re not going to allow the knee in the back to be used and the end result is the same as a front headlock with a back trip from the standing position. When we can, we are to stop potentially dangerous maneuvers before they become illegal.”

Jack Young State Interpreter

Below are two video clips that you can watch that is involves teaching the assassin move when the wrestler is flat on their stomach. This is a variation from the flyer that was originally sent.
